I am a truck driver and I need xm to keep broadcasting traffic and weather for myself to keep safe and get my loads to my destination and that as Americans I have the right to listen to xm and get my traffic there our first amendment. rights free speech and if you try removing traffic you are going against that and we will be turning into a communist state. The local stations that are fighting against us using xm for traffic only broadcast traffic in early morning and late afternoon and no other time and as a truck driver I need this updating all the time
